Fully enjoy your cup of coffee

Preheat your porcelain espresso cups and cappuccino mugs in the WHK cup heater of Bravilor Bonamat to fully enjoy your coffee. It has been recommended by professionals — especially coffee shop owners — for many years. Not only does your hot beverage remain warm for a longer period of time, but also the natural flavours remain intact. You will notice the difference!

The convenient WHK unit features three heating layers. Each layer can be switched on and off separately.

Espresso at its best

The effect on preheated espresso cups is remarkable as espresso is more sensitive than brewed coffee. Espresso is more concentrated and served in a smaller volume. Whenever there is a variance in temperature it has a negative effect on the taste. Therefore Bravilor Bonamat highly recommends the WHK cup heater as accessory to the Espreccious espresso machine.

Tip! A warm cup of espresso will also retain the crema layer longer.

Specifications	WHK cup heater
Capacity	approx. 120 espresso cups
Rated power	230V~ 50/60Hz 85W
Dimensions (wxdxh)	349x400x542 mm
Housing	stainless steel
Colours	dark-grey and stainless dark

The WHK cup heater fits into any environment matching all coffee machines of Bravilor Bonamat.

Accessories > Accessories > Filter papers > Filter rolls

Filter rolls

Bravilor Bonamat uses paper filters supplied on a roll in its fresh brew machines. This means that every single cup of coffee is prepared using a clean filter.

Compared to metal filters, paper filters are more hygienic and require less maintenance.

- The filter rolls are packed in boxes of 4.
One roll = approx. 2,000 cups of coffee.

Specifications

Drip tray for Sego

Please note! Bravilor Bonamat offers two types of drip tray for the Sego.

Are you using a pedestal?

Then choose the larger drip tray: drip tray for Sego on a pedestal. This drip tray has enough room for one day of automatic 'clean flush' rinsing water.

The same applies to both models:

- Made of black plastic.
- Easy to remove.
Easily rinsed under the tap.

Accessories > Accessories > Drip trays and pedestals > Sego raiser set

Sego raiser set

The Sego raiser set comprises a pedestal, a larger waste bin, a larger drip tray and lower drip tray grid.

- The pedestal raises the standard Sego 12 by 60 mm. This brings the total machine height to 650 mm.
- The larger waste bin can hold about 60 waste coffee capsules.
- The larger drip tray has room for more rinsing water, which means it needs emptying less frequently.
- The lower drip tray grid raises the tap height from 105 mm to 135 mm.

With a raiser set, it is also possible to connect the Sego to a water outlet. See: [Drainage set for water drainage](#).

Accessories > Accessories > Drip trays and pedestals > Sego L raiser set

Sego L raiser set

The Sego raiser set comprises a number of components: the Sego L pedestal, a larger waste bin, a larger drip tray, a lower drip tray grid and a pedestal for the milk fridge.

- The pedestal raises the standard Sego 11L/12L by 60 mm. This brings the total machine height to 650 mm.
- The larger waste bin can hold about 60 waste coffee capsules.
- The larger drip tray has room for more rinsing water, which means it needs emptying less frequently.
- The lower drip tray grid raises the tap height from 105 mm to 135 mm.
- The other pedestal is intended for the milk fridge. When the Sego is raised by 60 mm, the milk fridge must also be raised by 60 mm.

With a raiser set, it is also possible to connect the Sego L to a water outlet. See: [Drainage set for water drainage](#).

Pedestal Bolero 32 and 43

If you need to fill decanters or vacuum flasks with coffee, hot chocolate or hot water it is often desirable to increase the tap height from 120 to 240 mm. We offer an optional pedestal for this purpose. If you remove the drip tray you can maximize the tap height to 290 mm.

Filling decanters has never been so easy.
